SUBJECT: City Council infrastructure Funds

In recent years, the interpretation on the appropriate use of City Council infrastructure funds has been somewhat ambiguous. We would like to consider using infrastructure funds to help fill in a budgeting gap for an existing contract between the Mayor and a homeless services provider. The allocation would not fund a capital improvement, but rather an operations and/or staffing expense. Please provide your analysis on whether this is an acceptable use of these funds.

Your prompt attention to this matter is greatly appreciated.
